

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

The specification was amended to comply with the collective requirements of 37 C.F.R. 1.821 to 1.825. The original sequence listing submission included a typographical error in sequence no. 2 which has now been revised. The error in line 64 was not corrected because the undersigned representative could not detect the error in the Applicant's electronic and paper file. The applicants submit that the information contained in the sequence listing is identical to the information contained in the electronic version of the sequence listing. The applicants further submit that no new matter has been introduced into the application as a result of the present amendment.

Prompt consideration and entry of this amendment are respectfully requested.

Respectfully submitted,
